

## Kit 3, 5-Channel Yellow Jacket® AMS® Modular Accessibility Ramp System, ADA Cable Protector for 1" Lines - WSA-125-KIT3-HS

### DESCRIPTION

---

The 5-Channel Yellow Jacket® AMS® Modular Accessibility Ramp System (Kit 3) is designed to provide a safe, ADA-compliant crossing solution over cable protectors. Featuring a gradual slope and slip-resistant surface, this system ensures smooth passage for carts, forklifts, small-wheeled vehicles, and heavy-duty truck traffic.

Engineered for durability and modular flexibility, the AMS® system integrates seamlessly with compatible cable protectors using a secure hourglass connector design. This system meets ADA and DDA compliance standards, making it ideal for public, commercial, and industrial environments.

### FEATURES

---

- ADA & DDA compliant accessibility design
- Gradual incline for smooth transitions
- Slip-resistant surface for enhanced safety
- Modular system for expandable configurations
- Heavy-duty construction for high traffic environments
- Supports pedestrian and vehicle traffic
